8300 Dow Circle, Suite 600 Strongsville, Oh 44136

IBF Filter

- For use on compact style bag systems
- Ideal for “Low Flow” applications / systems
- Wide Chemical Compatibility
- Constructed using Monofilament Mesh Materials
 - No loose fibers
 - Uniform pore size
 - Structurally strong
- Fully welded side seam & endcaps
 - Eliminates bypass

Media	Micron	Individual Bag Filter
NMO = Nylon Monofilament	1 = 1 micron	-IBF
	25 = 25 micron	
	50 = 5- micron	
	75 = 75 micron	
	100 = 100 micron	
	125 = 125 micron	
	150 = 150 micron	
	200 = 200 micron	
	400 = 400 micron
